The Port Authority of Allegheny County recently began issuing a photo ID ConnectCard that will provide senior citizens with free transit. The ConnectCard takes the place of the commonly used Medicare card and existing Port Authority Bus Pass that seniors have been using for free bus or light rail rides. The Medicare card will no longer be accepted for free transit after Jan. 1, 2020. Due to this, I want to invite all seniors – 65 and up – to stop at my office in Coraopolis so that my highly trained staff can help you obtain a ConnectCard by assisting you with the necessary application and photo requirements. You must provide an acceptable photo ID to begin the process. From there it should only take about four weeks for the Port Authority to process the information, produce the card and ship it to my office. We will call you when your ConnectCard arrives. When we present you with your ConnectCard, we will collect your existing Port Authority Bus Pass. I look forward to assisting you!
