Eileen Boyd Hutchinson

January 1, 1923 – March 10, 2021

It is with great sadness that we announce the passing of Eileen Boyd Hutchinson, the founder of Neville Green. She was 98 years old and passed peacefully in her sleep on March 10, 2021. Eileen became a resident of Neville Island when her husband, Reverend Harry T. Hutchinson, was appointed minister of the Neville Island Presbyterian Church.

Eileen was responsible for the building of the two planting circles at the intersection of Grand Avenue and Neville Road and the triangle planting area at the 79 South ramp. She also created the Neville Naturalists program. Neville Green awards an annual scholarship in her name. She will be missed.

Earth Day 2021

Neville Green will be celebrating Earth Day a little different this year due to COVID-19 concerns. We will not be picking up trash, but we do ask that residents and businesses take part in cleaning up their own properties and areas.

Neville Green will be planting two trees in Cottage Park to celebrate Earth Day. We plan to do this on April 24th at 11am. We welcome everyone to attend to participate in the planting of the trees. COVID protocols will be followed (masks and social distancing). We will be handing out seed packets to all that attend and there will also be a door prize of a potted plant to a lucky winner!

The seed packets will also be available at the Township office for those that cannot attend.

Spring Planting 2021

Neville Green's annual flower planting will be held on May 22nd from 9am-12pm. Volunteers are needed for this event. Please email Dorothy at dorothy15225@gmail.com if you are interested in volunteering.

Scholarship

Neville Green is offering a scholarship of \$500 to a high school senior who will be continuing their education after graduation or a current college student who has volunteered their time to the community. All students must be a resident of Neville Island.

Applications can be obtained from the Cornell High School Guidance Counselor or the Neville Township Office at 5050 Grand Avenue, Neville Island.

Applications must be turned in no later than April 21, 2021 to the Cornell High School Guidance Counselor or sent to Neville Green 7204 Front River Road, Pittsburgh, PA 15225.

Beth Cannon	\$50.00
Michael Millner	\$100.00
Mary Ann Monski	\$50.00
David Swisher	\$25.00

Thank you to all for your ongoing support!

What Trees Do For Us

Excerpts from "Heathy Trees For A Healthy Environment"

The powers of trees are as wide and far reaching as one can imagine. From mental and emotional benefits to ecological healing, trees do a lot for us and our world. Some notable benefits include:

Saving Lives:

In the U.S. alone, trees save more than 850 lives and prevent 670,000 incidents of acute respiratory symptoms a year by removing air pollution.

Reducing Noise Pollution:

Trees serve as a beautiful and effective solution to urban noise, with the ability to reduce noise by around 5-10 decibels.

Generating More Oxygen:

The average number of urban trees needed to offset the annual oxygen consumption of one adult is approximately 30 trees; in other words, an acre of trees can provide enough oxygen for eight people.

Yes, I would like to help in the beautifying of our Neville Island community.
I would like to contribute to Neville Green's efforts. Attached is my contribution of \$ _____
I would like to volunteer an hour of physical help to be given at my convenience. _____

Name: _____

Address: _____

Phone: _____
