METER INFORMATION

Example of a Water Service Meter		Meter Size (not required) <input type="checkbox"/> 5/8" <input type="checkbox"/> 3/4" <input type="checkbox"/> 1"	
		Meter Comments	

SERVICE LOCATION

TO DETERMINE THE MATERIAL OF YOUR WATER SERVICE LINE YOU WILL NEED TO: Locate the service line pipe as it enters your home from an exterior wall or floor (most likely in a crawl space or basement).

Service Line 1 Pipe Entering Home (before meter)	Service Line 2 To Interior Plumbing (after meter)
	

Neville Township Water Service Questionnaire

To determine material:
Lightly scratch the pipe with a coin and check with a magnet.

Lead

Coin **WILL** scratch the soft metal and will leave a "shiny" silver spot behind.
Magnet will **NOT** stick

Galvanized

Coin will **NOT** scratch the hard metal and will not leave a "shiny" silver spot
Magnet **WILL** stick

Copper

Coin will **NOT** scratch the hard metal and will not leave a "shiny" silver spot
Magnet will **NOT** stick

Plastic

Do NOT need to perform scratch test. Pipe color is typically blue, black, white, or tan.
Magnet will **NOT** stick
